

REMARKS

The present paper is being submitted to provide a complete listing of claims that reflect both the Examiner's amendments and applicant's proposed amendments to the claims (dated August 9, 2005), and to correct the dependency of claim 20. No additional amendments to the claims are being presented.

Entry of the amendment is respectfully requested and believed to be appropriate because the amendments merely include the amendments to the claims that applicants' representative and the Examined had agreed upon, and an amendment to claim 20 to correct the dependency thereof since claim 18 was cancelled.

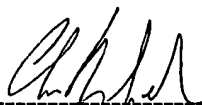

Any amendments to the claims, or addition or cancellation of claims, which have been made in this amendment, and that have not been specifically noted to overcome a rejection based upon the prior art, should be considered to have been made for a purpose unrelated to patentability, and no estoppel should be deemed to attach thereto.

Should the Examiner have any questions, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully submitted,
